CONDITION IS CRITICAL  
Lee Henson, who has been ill for several months at his home on Route 5, is reported to be in a critical condition.

He also has done some minis- terial work in Texas and attend- ed John Tarleton College at Stephenville, Texas, at Hardin- Simmons University at Abilene. That was back at the turn of the century.

Mr. Riley says he is "past 70," but carries himself with the vigor of a much younger man. He bears a striking resemblance to former vice president Alben Barkley and says that on a few occasions he has been mistaken for the Paducah man.

Mr. Riley told many stories of his boyhood days in Rileytown and the Soldier Creek section, where he grew up with the Cross, Bean, Prather and other families. He said he cut his first teeth on a quarter provided by Grandmother Cross. He still has that quarter. It was minted in 1801.

Mr. and Mrs. Sam Rickman spent last Sunday with her sis- ter, Mrs. Alice Beggs, and Mr. and Mrs. Richard Hutchens on Benton Route 8.

### Rains Help Oats, Grasses In This County

By J. HOMER MILLER

A good rain after almost 20 days of sunshine. The ground was badly in need of moisture. Oats and grasses have been seeded. This should cause them to germinate if the weather doesn't get too cold.

There were more spring oats seeded the past two weeks than has been seeded in the past several years. This should give some early pasture as well as spring hay.

Soil samples have been com- ing to this office in increased numbers. More samples have been tested in the first 1½ months than any similar per- iod since I have been here.

Gardeners have been very busy the past week. Lettuce, mustard, radishes, peas, onions and potatoes have been planted.

The Farm and Home Devel- opment families will hold their fourth meeting this week and fifth meeting next week. There are 23 families enrolled in the second phase of the program this year. Applications are now being taken for classes next fall.

The closing date for orders on pine trees is drawing near. The last date orders may be re- ceived will be March 1. Get your order in now. 75,000 trees were delivered this week.

Bill Havel, music director of Benton High School, was ad- mitted to membership in the Rotary Club at the meeting.

### City Wants to See You About Some Dough

Now is the time to shell out, fellows.

In addition to all four other problems, boys, the City of Ben- ton wishes to see you on three matters that pertain to finance.

1. City taxes must be paid by March 1 or a 6 percent pen- alty will be placed against you.

2. City automobile licenses must be bought by March 1 or you are liable to a 10 percent penalty.

3. City occupational licenses are due and payable by March 1, or you again will suffer a 10 percent penalty.

But don't fret. Just go to the City Hall and ask for Joe (Joe Williams, city clerk) and he will fix you up. He's a good Joe.

Since 1853 the name Steinway has been a household word. In this Steinway century, concert artists, the greats of past and present, have been content with nothing less than the perfection of a Steinway.

The Steinway today - built with the experience, the skill and the pride of craft handed down to a fifth generation of Steinway sons - is the greatest Steinway of them all. No other instrument approaches its golden singing voice, its depth of tonal color, its responsive touch. For the home, the Baby Grand, above, or the contemporary Regency Vertical, below, yields all the musical treasure of a Steinway.

### Navy Men to Attend Meetings

is out for ex-Navy  
in the expanding Naval  
electronics program in  
according to Bob Rid-  
Reserve officer of

Interested men can go to Pa-  
ducuh each Wednesday night  
with Mr. Rider to attend these  
meetings. The meetings are held  
from 7:30 to 10 p.m.

Reservists can earn up to \$6  
in extra pay each week by at-  
tending drills, Rider said, and  
they also get credits toward  
promotion and retirement. In  
addition, a 14-day training per-  
iod with full pay is offered each  
year at a Naval school or aboard  
ship.  
This training program also is  
available to 17 and 18 year old  
youths.

### MRS. VOLNEY BRIEN IS HOME FROM HOSPITAL

The Marshall Courier had a  
mental lapse last week and said  
Miss Anna Mae Duke had re-  
turned to the home of her par-  
ents, Mr. and Mrs. A. N. Duke,  
after being a patient at a May-  
field hospital.

The story should have said  
Mrs. Volney Brien, because that  
is who Anna Mae Duke has been  
for several years now. She re-  
turned to her home from the  
hospital and not the home of  
her parents.  
The Courier apologizes to all  
concerned and regrets the slip  
in memory.

## Traffic Safety Drive Will Start on March 1

**CHICAGO**—To make courtesy a byword on every byway of the United States is the aim of a national traffic safety campaign to be launched March 1.

The American motorist, who so often is an Emily Post as a host but a heel at the wheel, will be asked to "Make Courtesy Your Code of the Road."

Three national safety organizations have joined forces for the program, which translates into practical action one important goal of the recent White House Conference on Highway driver attitudes.

The three cooperating organizations are the Inter-Industry Highway Safety Committee, an organization of automotive and allied industries, the National Committee for Traffic Safety, and the National Safety Council.

"The real solution to the highway safety program lies in the mind of the individual," said W. Hufstader, chairman of the Inter-Industry Highway Safety Committee. "And we must reach the individual's mind while he is at the wheel of his car."

A long standing effort to solve the question of school taxes for the House of Representatives by Rep. Shelby of Benton, measure would provide counties containing less than 75,000 persons, the sheriff should, in computing his own income and payment of his authorized deputies, first list his income from sources other than school funds, and then, to make up any deficiency due, he might retain up to 4 per cent from these funds to bring his earnings up to the constitutional maximum of \$7,200 a year.

**The Best Proof**  
Hearings for February 21, 1954

**HOW do we know Christianity is true? How do we know Jesus was right? How do we know religion is not a very fancy illusion? It is a fair question. When E. Stanley Jones was talking about his Christian faith to a group of professors in a great university, one of them rose to ask him: "How do you know all this is not a hallucination?" "Well," said Dr. Jones, "if religion is a hallucination and I am crazy, then I am thankful; for this 'insanity' has done more for me than all the 'sanity' I had before." Dr. Jones did not suppose that he could answer all the riddles about religion that any one can think of. But he did know Jesus and he knew what Jesus had done for him. G. Studdert-Kennedy was another thorough-going Christian. At the end of a poem on "Faith" he says something like this: "You think Christianity is an argument, but it is not. It is a choice: and I choose Christ."**

**'One Thing I Know'**  
The Bible story for this week tells about a young man who did not claim to know much. If you had put him into a modern theological seminary he could not have passed an examination in "Christology" to save his life. In fact, it seems doubtful whether he would even be admitted to membership in some orthodox churches today. The theological experts of his church, the Pharisees, in fact tried to grill him. They tried to confuse him, they wanted him to admit that Jesus was a fake, a liar, all the bad things they kept saying he was. But the young man stuck to one point. He does not seem to have been well educated. It may be doubted whether he could have met those Pharisees in a formal debate. But he stuck to his one point. "One thing I know, that though I was blind, now I see." The best proof that Jesus was right, that Christianity is true, is not arguments from books. It is the argument from people. It is what Christ has done for them, it is the difference between what they were before they met Jesus and what they were afterwards.

**Samples**  
In an American seminary the same year, studying for the Christian ministry, were a Japanese and an African. Their ancestors did not speak the same language. Only a few years ago the father of the Japanese boy was an officer in the Japanese army fighting the Americans. Neither he nor his wife was a Christian; but after the father's death the boy came to know some Christian missionaries, and now instead of an errand of death his aim is to return to his own people on an errand of life. "I can see now," the young man said, "that Japan was wrong." Christ had opened his eyes to a way of life, and of truth, which has changed his whole life and will change others. As for the African, a few generations back his people were as far from Christ as the Japanese officer. Then some one thought it worth while to tell the story of Jesus in Africa . . . and now this boy, son of native African Christians, is another demonstration that Christianity is true. You would not have found it safe to sit down with some of his ancestors (nor with some of your own, for that matter!); but you would be glad to have him in your Sunday school class.

**Prevention Mission**  
Not all the "samples" of Christianity are as dramatic as cannibals, or sons of former idol-worshippers. For every "rescue mission" there are many "prevention missions"—for the ordinary little church is just that. Consider what a community would be without the church, consider what the church members would be without their religion. Granted that church members do not live up to their possibilities or their professions. We do not want to tear down the hospitals because they do not cure all the diseases. We do not abolish medicine because some people take it and are not quite cured. We know the world is better for hospitals and medicines, imperfect as they are. So we know that Christianity does work. We do not see great saints every week, more's the pity. But you do not have to look far from your own home to see some living proofs that Christ has power.

(Based on outline supplied by the Division of Christian Education, National Y. M. C. A., released by Community Press Service.)

### Don't Write About Tax Refund; You Will Get it Okay

If you have filed your Federal income tax return for the year 1953 and you have a refund coming, you should not write to the director of internal revenue inquiring about the refund. If you have filed a correct income tax return, any refund due will be mailed direct to you without further action on your part. Many individuals have been inquiring as to when they will get their refund checks, and Wm. M. Gray, director of internal revenue, advises that generally refund checks are mailed out within approximately 60 days after the filing of the return. He further advises that refund checks are mailed from the regional finance office in St. Louis, and unless you have been advised of an error in your return, you will get any refund due from the office in St. Louis as quickly as possible. It is mandatory that you file an income tax return if you had gross income of \$600 or more during the year, or if you earned less than this amount and your earnings were subject to withholding, you must file a return in order to receive refund.

### Weight Checking Of Pre-Packaged Foods Will Start

Frankfort, The Kentucky Department of Agriculture's division of weights and measures will soon start a program of checking weights on all types of pre-packaged foods offered for sale in retail stores.

Commissioner of Agriculture Ben S. Adams stated in Frankfort today that the program will start about March 1.

George L. Johnson, director of the division of weights and measures, declared that a re-

cent survey in the state indicates that many instances of pre-packaged items such as coffee, flour, meal, ground beef, potatoes, and produce not weighing the total amount indicated on the food container.

The weights and measures division will send a field man to check weights of the various pre-packaged staples in the grocery stores. When short-weighted articles are discovered, and evidence of fraud is indicated, the grocer will be instructed to remove such items from his retail shelves and return them to the manufacturer.

### Back Porch Likely to Become Popular Again

The back porch has a good chance of being brought into a few million American homes in the near future. This major revision in the home will be made necessary through further extension of our electrical living, for the sale of electrical appliances is beginning to exceed the American home's capacity to accommodate these essential items.

In looking for ways and means of expanding the living space in the home, many are discovering that the back porch may be the answer. This area already is part of the house and has the essential structural elements to make it a very simple job to finish it into a room as an extension of the kitchen area.

The use of such modern materials as prefinished wall panels can make this a rather simple operation. Prefinished wall panels, which come in large wall-sized sections, can be cemented directly to sheathing nailed to the studding to provide a durable, easy-to-clean wall and ceiling surface. Since prefinished wall panels come in a wide variety of colors and finishes in baked enamel that are factory-applied, this material comes to

the job ready to install with no further need for painting now or in the future.

Every indication seems to be that new homes in the future must be planned to provide larger kitchen areas to house in one place the increasing number of electrical appliances.

There is also a growing need for more space in currently occupied dwellings to meet the requirements for growing families. Again this is a problem that can be met through the use of prefinished wallpanels for wall and ceiling surfaces in added bathrooms and living quarters in areas which are now unfinished attics.

## Ford's New Ball-Joint Suspension gives you the Newest Ride on the Road!

This revolutionary new Ford front suspension soaks up road shock before it reaches you! Makes all riding and handling easier!

**Seals out dirt.** You can forget road splash because dirt and water can't get into the ball joints in Ford's new front suspension. Each of the four joints is effectively sealed by a unique rubber and metal shield. This means that contact surfaces of each ball and socket remain clean, wear is kept to a minimum.

**Keeps that new-car feel.** You'll enjoy Ford's new-car feel much longer because ball joints are spring loaded to compensate automatically for any wear. Front wheels hold alignment far longer than with conventional systems. Ball joints can't stick or bind. Steering remains consistently easy.

THE "OLD" roads won't seem the same with Ford's new Ball-Joint Suspension "paving" the way for you. You'll enjoy a softer, more level ride because Ford's new system allows greater shock absorbing movement of the front wheels. Handling is far better, too, not only on turns but on the straightaways as well. That's because conventional kingpins have been replaced by simple, sealed ball joints that won't stick or bind. No other car in Ford's field can equal this modern ride—because no other has Ball-Joint Suspension.

Agile new performance, too, is yours in a '54 Ford. Whether you choose Ford's new 130-hp. Y-block V-8 or 115-hp. I-block Six you get the quick response and smooth, quiet operation of a modern overhead valve, low-friction deep-block engine. And no matter which of Ford's 28 new models you choose you enjoy recognized style leadership—with clean, modern lines... sparkling new colors... and harmonizing upholstery fabrics and trim.

**Eliminates 12 wear points.** Ford's Ball-Joint Front Suspension eliminates 12 of 16 points of wear found in conventional systems. Rubber-bushed supports at lower ends of suspension control arms not only reduce the number of wear points but also insulate chassis from road noises.

We cordially invite you to Test Drive a '54 Ford
